CSS

HOBBIES AND INTERESTS

I like to draw characters, I have a lot of books full of my drawings of comics.

I am also keen on hi-tech product and informatics. I learned the html and css language just because I wanted to organize my portfolio as I wanted it.

I like biking, I customized my own fixie because I always try to go further. So that, with two friends, we decided to create the brand "April Pigment". We repair, paint and customize impressive bikes.

Finally I'm practising snowboarding since 7 years, always in search of thrills

WORK EXPERIENCES

Summer 2009 Ten weeks working as a kitchen assistant, for many various tasks, working hard every day, with multinational employees at Lighthouse INN in Cape Cod, USA.

Summer 2011 Warehouseman in agriculture wholesale outlet.

Summer 2012 Stock controller in tiling wholesale outlet.
